

# Air Power

**“The ability to use platforms operating in or passing through the air for military purposes”**

# Strengths of Air Power

**Height**

**Speed**

**Reach**

**All-encompassing**

**Flexibility**

**Response**

**Concentration**

# Limitations of Air Power

**Airborne time**

**Limited payloads**

**Fragility**

## Other considerations with Air Power

**Cost**

**Dependency on bases**

**Sensitivity to light and weather**

**Sensitivity to technology**
